EDUCATION

UNIVERSITY OF WATERLOO
HONOURS BACHELOR OF COMPUTER SCIENCE
Aug 2017 | Waterloo, ON

EXPERIENCE

WATCH HABITAT
SOFTWARE DEVELOPER
Aug 2019 – Nov 2019 | Toronto, ON

Tools used: Typescript, Javascript, PostgreSQL, Gatsby, Prisma, Apollo GraphQL, AWS, Netlify, FusionAuth, Git

- Built and deployed a serverless backend with a GraphQL API
- Built full functionality mockup for entire site using Gatsby, an extension of React
- Set up primary sign-in mechanism for entire website, allowing users the option to login using their Facebook or Gmail account
- Configured and deployed a database on AWS and set up database access and schema migration

BLOCKCHAIN MARKETS
SOFTWARE DEVELOPER
Dec 2017 – Aug 2019 | Toronto, ON

Tools used: Java, Javascript, PostgreSQL, Solace, Spring, Liquibase, Hibernate, Protobuf, Google Cloud, Kubernetes, Cloud Pub/Sub, Angular, STOMP, Maven, Docker, Git, Jenkins

- Implemented failover mechanism in all microservices using Solace queues
- Investigated best security practices and implemented authentication and authorization for partner API users
- Created and maintained REST API endpoints that handle hundreds of request per second
- Responsible for most database-related tasks such as structural changes, performance improvements, and migration scripts
- Set up, configured, and deployed microservices to Google Cloud Platform
